

Iroquois Pond, Mountain View Well and Tata Wells and Tank SEZ Restoration

Project Number	01.01.01.0167		
Action Priority	Reduce Stormwater Pollution From: Roads and Highways, Forest Roads, Public and Private Parcels		
Implementers	South Tahoe Public Utility District		
Supporting Agencies	Unknown		
Primary Contact	Donielle Morse (dmorse@stpud.us)		
Stage	Deferred	Duration	2022 - 2022
Total Project Cost	\$347,863	Funding Request	Unknown

Stormwater Management Program ➤ Reduce Stormwater Pollution From: Roads and Highways, Forest Roads, Public and Private Parcels

This project is the planning, design and environmental requirements necessary to implement the Stream Environmental Zone restoration of three key STPUD sites: Iroquois Pond, Mountain View Well and Tata Wells and Tank. The goal of this project is to implement the best management practices and SEZ restoration plans developed for each site in order to benefit the water quality of Lake Tahoe by reducing erosion, sediment flow and surface water runoff originating from these three sites. The three sites are listed together as one project for planning purposes and because of their similarities.
