

Lower Blackwood Creek Restoration - Phase 1 (including Eagle Rock)

Project Number	01.02.01.0003		
Action Priority	Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries		
Implementers	California Tahoe Conservancy, California Conservation Corps.		
Supporting Agencies	California Conservation Corps., California Tahoe Conservancy, Tahoe Fund, U.S. Army Corps of Engineers		
Primary Contact	Whitney Brennan (whitney.brennan@tahoe.ca.gov)		
Stage	Completed	Duration	2006 - 2017
Total Project Cost	\$4,220,935	Funding Request	\$0

Watershed Restoration Program ➤ Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

The project is located along Blackwood Creek and includes the Eagle Rock trails system, on the west shore of Lake Tahoe. The project will enhance aquatic and riparian habitat conditions and provide water quality benefits by enhancing the natural function of a highly degraded stream. The project will specifically adjust stream plan form in certain locations, excavate floodplain areas, degrade steep banks and install toe revetments, install debris structures and riffles in channel, revegetate banks and floodplains, reroute trail sections, apply trail BMPs, and remove encroaching conifers from aspen stands.

Targeted Performance Measures

No Expected Accomplishments provided

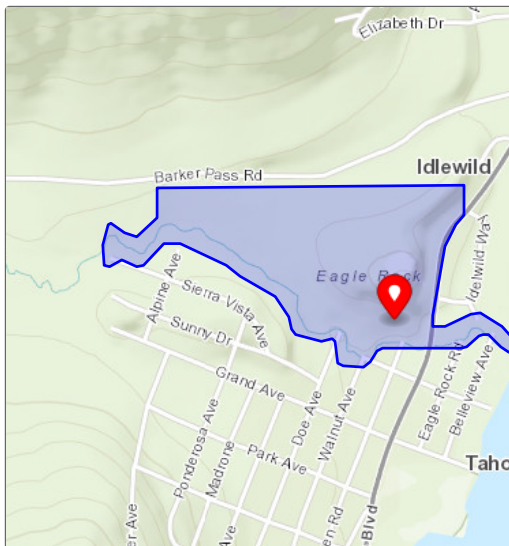

Threshold Categories

- Fisheries
- Soil Conservation
- Water Quality
- Recreation
- Vegetation Preservation

Lower Blackwood Creek Restored

Location

Targeted Funding

- Secured Funding: California Conservation Corps (CCC), \$77,310
- Secured Funding: California Tahoe Conservancy (CTC), \$1,306,753
- Secured Funding: Tahoe Fund (Tahoe Fund), \$27,500
- Secured Funding: U.S. Army Corps of Engineer... (USACOE), \$2,809,372
