

Angora Creek Fisheries/SEZ Enhancement Project

Project Number 01.02.01.0009

Action Priority Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

Implementers El Dorado County, CA **Supporting Agencies** Unknown or unspecified

Primary Contact Donaldo Palaroan (donaldo.palaroan@edcgov.us)

Stage Completed **Duration** 2005 - 2013

Total Project Cost \$1,438,206 **Funding Request**

Watershed Restoration Program > Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

The completed project involved the construction of a new channel, replacement of undersized and failing culverts with concrete arch culverts at two locations and removal of fill material adjacent to the stream channel to improve floodplain function and riparian vegetation. This project continues to provide long-term water quality, riparian and aquatic habitat benefits.

No Expected Accomplishments provided

Targeted Performance Measures

Threshold Categories

- Air Quality
- Soil Conservation
- Water Quality

- Fisheries
- **Vegetation Preservation**
