

## Third Creek Restoration Phase I

<b>Project Number</b>	01.02.01.0016		
<b>Action Priority</b>	Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries		
<b>Implementers</b>	Incline Village General Improvement District		
<b>Supporting Agencies</b>	Unknown or unspecified		
<b>Primary Contact</b>	HUDSON KLEIN (hwk@ivgid.org)		
<b>Stage</b>	Completed	<b>Duration</b>	? - 2010
<b>Total Project Cost</b>	\$1,732,987	<b>Funding Request</b>	\$0

### Watershed Restoration Program ➤ Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

The project includes the implementation of many features to reconnect the creek with the floodplain, stabilize steep eroding banks, and increase fish habitat and migration on Third Creek between Incline Way and Lakeshore Drive. The project also included the connection of a remnant channel which will be activated when flows in the channel exceed approximately 60 cfs. The activation of this channel provided an opportunity to enhance an area of existing stream environment zone (SEZ), reduce erosive flows within the main Third Creek channel and provide another mechanism to allow sediment to fall out of suspension.

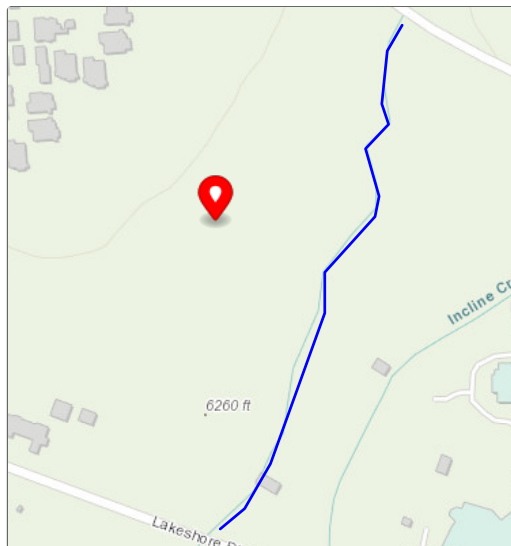

#### Targeted Performance Measures

*No Expected Accomplishments provided*

#### Threshold Categories

- Soil Conservation
- Water Quality

#### Location

A restored Third Creek

#### Targeted Funding

■ Secured Funding: Unknown or Unassigned, \$1,732,987
