

Slaughterhouse Meadow Restoration Phase 2

Project Number	01.02.01.0092		
Action Priority	Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries		
Implementers	Tahoe Douglas Fire Protection District, Nevada Environmental Consulting		
Supporting Agencies	Glenbrook Homeowners Association, Nevada Tahoe Resource Team – Nevada Division of Forestry		
Primary Contact	Keegan Schafer (kschafer@tahoe-fire.com)		
Stage	Completed	Duration	2020 - 2021
Total Project Cost	\$40,000	Funding Request	\$0

Watershed Restoration Program ➤ Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

This project restores 0.7 acres of poor functioning fragmented wetland habitat to functional cold-water aquatic and terrestrial wetland habitat and addresses mosquito habitat, water quality, wetland function and diversity through the construction of a beaver analog pond structure. This project results in no net loss of wetland acreage. Total project impacts to a WOUS is 0.70 acres. Total project boundary including upland is two acres. Project results in approx 30 CY of relocated fill, 10 CY of rock fill for erosion protection along roadway and +/- 1,800 for export of pond material. Plan calls for salvage and reuse of all wetland soils and plants.

Targeted Performance Measures

- Acres of Habitat Restored or Enhanced

Threshold Categories

- Fisheries
- Wildlife
- Water Quality

Location

Targeted Funding

- Secured Funding: Glenbrook Homeowners Association (GHOA), \$62,000
- Secured Funding: Nevada Division of Forestry (NDF), \$62,000
