

Washoe Meadows Quarry Site Enhancement Project

Project Number	01.02.01.0105	Duration	2023 - 2026
Action Priority	Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries	Funding Request	Unknown
Implementers	California Department of Parks and Recreation		
Supporting Agencies	Unknown		
Primary Contact	Rich Adams (rich.adams@parks.ca.gov)		
Stage	Planning/Design		
Total Project Cost	\$200,000		

Watershed Restoration Program ➤ Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

California Department of Parks and Recreation is in the initial stage of designing a wetland enhancement project in the old quarry pit and pile near Dry Meadow in Washoe Meadows State Park. The site currently holds water until early summer and has established wetland vegetation - design goals would include expanding wetland habitat by lowering surface elevation, removing discarded quarry debris, maximizing wildlife habitat components, and extending surface water longer into the summer months.

Targeted Performance Measures

- Disturbed Areas Restored, Enhanced, or Created
- Acres of SEZ Restored or Enhanced

Threshold Categories

- Scenic Resources
- Soil Conservation
- Vegetation Preservation

Location

Targeted Funding

■ No Funding Source Identified
