

Tahoe Keys Lagoons Long Term Water Quality Improvement Project Planning

Project Number	01.02.01.0106		
Action Priority	Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries		
Implementers	Tahoe Keys Property Owners Association		
Supporting Agencies	Tahoe Keys Property Owners Association		
Primary Contact	Rick Lind (Rick@SierraEcos.com)		
Stage	Planning/Design	Duration	2023 - 2031
Total Project Cost		Funding Request	\$720,000

Watershed Restoration Program ➤ Restore Priority Meadows, Wetlands, and Lake Tahoe Tributaries

The Tahoe Keys Property Owners Association proposes to plan, address technical challenges, and engage stakeholders on improvements to the long-term quality and beneficial uses of waters of the Tahoe Keys Lagoons (i.e., the Marina, West, and Lake Tallac lagoons). Evaluations will focus on water quality, lagoons circulation, and control of algae/HABs and invasive aquatic plant fragments. Depending on TKPOA and stakeholder interests, project planning could also include interrelated environmental issues, such as: 1) reduced nutrient inflow to/outflow from Lake Tallac Lagoon, and 2) reduce water quality & AIS impacts and threats to Pope Marsh.

Targeted Performance Measures

- Acres of Habitat Restored or Enhanced

Threshold Categories

- Fisheries
- Scenic Resources
- Water Quality
- Recreation
- Vegetation Preservation
- Wildlife

Location

Harmful algae blooms (HABs) are occurring more frequently in the Tahoe Keys lagoons.

Targeted Funding

- Secured Funding: Tahoe Keys Property Owners A... (TKPOA), \$170,000
- Targeted Funding: California Department of Fish... (CDFW), \$100,000
- Targeted Funding: California State Water Re... (Lahontan), \$250,000
- Targeted Funding: Excess Coverage Mitigation Fu... (TRPA), \$200,000
- Targeted Funding: Tahoe Keys Property Owners A... (TKPOA), \$170,000

Photos

Before

Tahoe Keys homeowners have 11 miles of waterways "lagoons" in their backyard.
