

Lake-Wide Invasive Warm Water Fish Control

Project Number	01.03.01.0019		
Action Priority	Prevent, Control, or Eradicate Aquatic Invasive Species		
Implementers	Tahoe Resource Conservation District		
Supporting Agencies	California Tahoe Conservancy, Tahoe Regional Planning Agency		
Primary Contact	Mollie Hurt (mhurt@tahoercd.org)		
Stage	Planning/Design	Duration	2017 - 2035
Total Project Cost	\$3,000,000	Funding Request	\$0

Aquatic Invasive Species Program > Prevent, Control, or Eradicate Aquatic Invasive Species

Target invasive fish species are contributing to declines in native and recreational non-native fish, alterations in food-web dynamics, and reductions in water quality. Recreational non-native fish species (i.e., rainbow trout, brown trout, brook trout, lake trout, and kokanee salmon) are not targeted by the program. An IS/ND and IEC/FONSE was completed for the Target Invasive Fish Control Program at Lake Tahoe to authorize a selection of mechanical fish control methods that can be implemented in locations of suitable habitat for the target species over the next 20 years. The Notice of Determination was completed in April 2020.

Targeted Performance Measures

- Acres of Habitat Restored or Enhanced
- Acres Treated for Invasive Species

Threshold Categories

- Fisheries
- Recreation
- Water Quality

Goldfish found in Lake Tahoe

Location

Targeted Funding

- Secured Funding: Proposition 1 (CTC), \$243,000
- Secured Funding: Tahoe Regional Planning Agency (TRPA), \$11,400
- No Funding Source Identified
