

## Tahoe Keys Fragment Containment

<b>Project Number</b>	01.03.01.0039		
<b>Action Priority</b>	Prevent, Control, or Eradicate Aquatic Invasive Species		
<b>Implementers</b>	League to Save Lake Tahoe		
<b>Supporting Agencies</b>	League to Save Lake Tahoe, Tahoe Keys Marina (Suntex), Tahoe Regional Planning Agency		
<b>Primary Contact</b>	Laura Patten (Laura@keeptahoeblue.org)		
<b>Stage</b>	Implementation	<b>Duration</b>	2023 - 2025
<b>Total Project Cost</b>	\$300,000	<b>Funding Request</b>	\$50,000

### Aquatic Invasive Species Program ➤ Prevent, Control, or Eradicate Aquatic Invasive Species

Additional containment tools are integral to Keep Tahoe Blue and free from the threat of aquatic invasive plants. There is currently no active work being completed in the Tahoe Keys Marina to control Aquatic Invasive Plants. The League to Save Lake Tahoe, along with Eco-Clean Solution Inc., is piloting first-time deployment of innovative technologies in the Tahoe Basin to continue work initiated with ECO-Clean Solutions in 2022 to address litter and microplastics with Suntex Marinas. This technology will be used to create a physical barrier between the AIP infestation in the Tahoe Keys Marina and Lake Tahoe. The work was piloted in 2023 with the use of the Pixie Drone technology.

Tahoe Keys Complex East Channel Containment Map

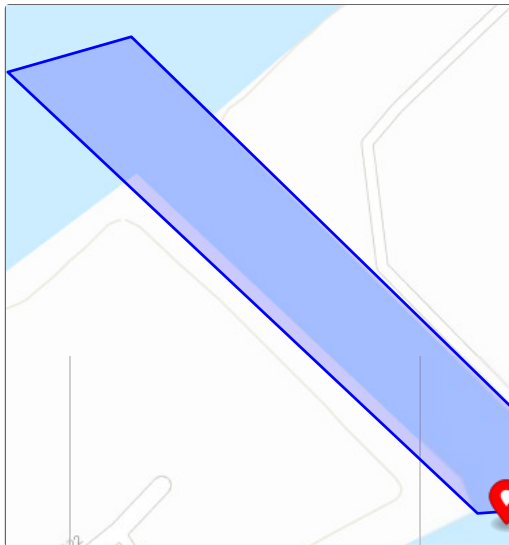

### Targeted Performance Measures

- Acres Treated for Invasive Species

### Threshold Categories

- Fisheries
- Water Quality

### Location

### Targeted Funding

- Secured Funding: Lake Tahoe Restoration Act (TRPA), \$100,000
- Secured Funding: League to Save Lake Tahoe (League), \$50,000
- Secured Funding: Tahoe Keys Marina (Suntex) (TKM), \$100,000
- Targeted Funding: Lake Tahoe Restoration Act (TRPA), \$50,000
