

Logan Shoals Aquatic Invasive Plant Control

Project Number	01.03.01.0045		
Action Priority	Prevent, Control, or Eradicate Aquatic Invasive Species		
Implementers	Tahoe Resource Conservation District		
Supporting Agencies	Nevada Tahoe Resource Team – Nevada Division of State Lands, Tahoe Regional Planning Agency		
Primary Contact	Mollie Hurt (mhurt@tahoercd.org)		
Stage	Implementation	Duration	2022 - 2025
Total Project Cost	\$245,310	Funding Request	\$0

Aquatic Invasive Species Program ➤ Prevent, Control, or Eradicate Aquatic Invasive Species

Aquatic invasive plant removal implemented at Logan Shoals is prioritized in the Action Agenda, a multi-year lake-wide strategy to remove aquatic invasive plants along the shoreline of Lake Tahoe. Methods of removal include barrier installation, diver-assisted suction (if needed), and hand removal. Barriers were installed at this site in 2023 and removed in 2024. Divers continued surveillance monitoring at this site throughout the 2024 plant growing season.

Targeted Performance Measures

- Acres of Invasive Species Inventoried
- Acres Treated for Invasive Species

Threshold Categories

- Fisheries
- Scenic Resources
- Recreation
- Water Quality

Location

Aerial view of Logan Shoals aquatic invasive plant infestation, Glenbrook, NV, October 2022.

Targeted Funding

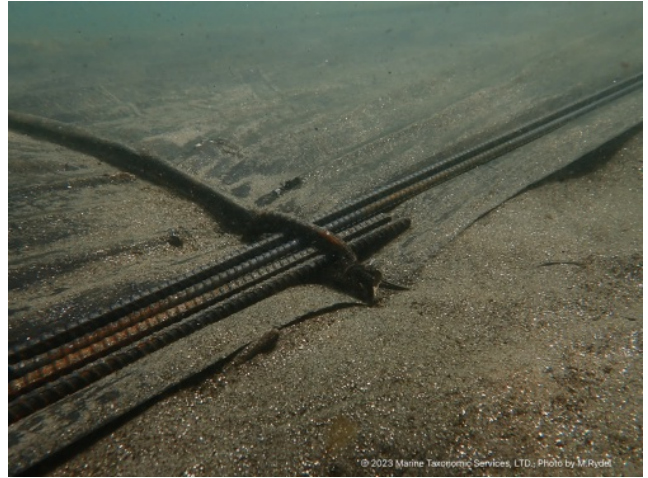

- Secured Funding: Lake Tahoe License Plate Prog... (NDSL), \$182,310
- Secured Funding: Lake Tahoe Restoration Act (TRPA), \$63,000
