

Tahoe Keys Lagoons (Entirety) Aquatic Invasive Weed Control Planning

Project Number	01.03.01.0046		
Action Priority	Prevent, Control, or Eradicate Aquatic Invasive Species		
Implementers	Tahoe Regional Planning Agency		
Supporting Agencies			
Primary Contact	Dennis Zabaglo (dzabaglo@trpa.gov)		
Stage	Planning/Design	Duration	2025 - 2028
Total Project Cost	\$3,000,000	Funding Request	\$6,000,000

Aquatic Invasive Species Program ➤ Prevent, Control, or Eradicate Aquatic Invasive Species

The Tahoe Keys is the highest priority location of invasive aquatic weed control. With the completion of the Tahoe Keys Control Methods Test, data collected will inform a holistic treatment regime for the entirety of the Tahoe Keys. Maximizing fragment containment and interim treatments will take place in 2025, as well as stakeholder engagement. Planning and environmental review will be the next step planning to solve this complicated infestation.
