

Aquatic Invasive Species Monitoring and Habitat Protection Project

Project Number	01.03.01.0048		
Action Priority	Prevent, Control, or Eradicate Aquatic Invasive Species		
Implementers	Tahoe Resource Conservation District		
Supporting Agencies	U.S. Forest Service - Lake Tahoe Basin Management Unit		
Primary Contact	Sarah Muskopf (sarah.muskopf@usda.gov)		
Stage	Planning/Design	Duration	2025 - 2035
Total Project Cost	\$3,000,000	Funding Request	\$223,181

Aquatic Invasive Species Program ➤ Prevent, Control, or Eradicate Aquatic Invasive Species

This project will implement monitoring and treatment at previously completed Aquatic Invasive Plant (AIP) treatment locations on National Forest System (NFS) lands to ensure no new infestations occur, projects meet objectives, and biological and physical habitat conditions on NFS lands are conserved/enhanced. Objectives include development of monitoring plans, oversight of scientific divers completing monitoring and rapid response treatments on NFS land, documentation that completed AIP projects on NFS are monitored, and remain weed free, and ensuring biological and physical habitat on NFS lands is conserved/enhanced.

No Key Photo provided for this Project

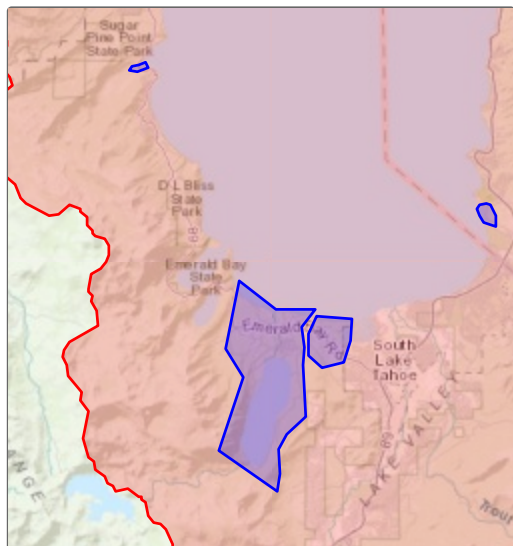

Targeted Performance Measures

- Acres of Habitat Protected
- Acres of Invasive Species Inventoried

Threshold Categories

- Fisheries
- Recreation
- Water Quality

Location

Targeted Funding

- Secured Funding: Lake Tahoe Restoratio... (USFS - LTBMU), \$1,050,000
- Targeted Funding: Lake Tahoe Restoratio... (USFS - LTBMU), \$223,181
- No Funding Source Identified
