Stage	Completed	Duration	2014 - 2018
Total Project Cost	\$25,000	Funding Request	\$0

Community Wildfire Protection Program ➤ Reduce Hazardous Fuels

The Dover Drive forestry project involves cutting of trees that were marked under the guidance of a Registered Professional Forester (RPF) for forest health and fuel reduction efforts. The project is being implemented by hand crews cutting designated trees and brush. The project involves the cutting and chipping of designated trees and brush. The project is located in the South Shore of Lake Tahoe and is approximately 5 acres in size.
