| Stage | Completed | Duration | 2018 - 2021 |
| Total Project Cost | \$628,894 | Funding Request | \$0 |

Community Wildfire Protection Program > Reduce Hazardous Fuels

This project includes on-going Capital, Operations and Maintenance activities at the Lake Airport. This program is funded by the Airport Enterprise Fund operations budget and through grants from the Federal Aviation Administration and the State of California. These include forest fuel reduction and fire resilience in areas surrounding the airport, and habitat modification to reduce the likelihood of wildlife/aircraft collisions. All efforts are supported for regulatory compliance through a contract Registered Professional Forester and a contract Wildlife Biologist. Project completed on November 19, 2021.

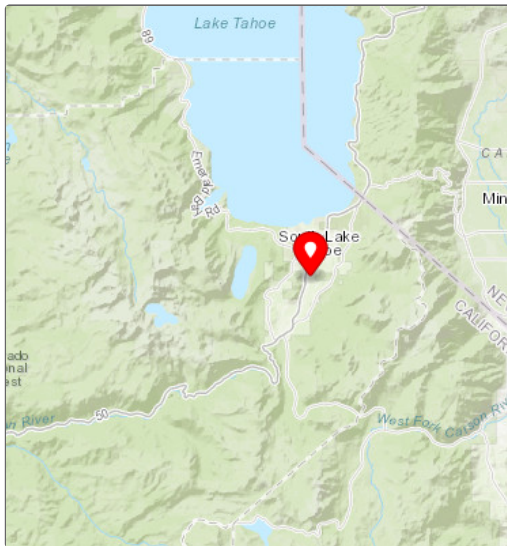

Targeted Performance Measures

- Facilities Improved or Created
- Linear Feet of Stream Channel Restored or Enhanced
- Pounds of Air Pollutants Removed or Avoided by Project

Threshold Categories

- Air Quality
- Water Quality
- Soil Conservation

Location

California Conservation Corps thinning trees less than 14" dbh

Targeted Funding

- Secured Funding: California Department of ... (Cal Fire), \$179,951
- Secured Funding: Lake Tahoe Airport Enterprise... (CSLT), \$448,943
