

US Forest Service Airport Eastside Fuels Reduction Project

Project Number 02.01.01.0111
Action Priority Reduce Hazardous Fuels
Implementers Lake Valley Fire Protection District
Supporting Agencies U.S. Forest Service - Lake Tahoe Basin Management Unit
Primary Contact Martin Goldberg (goldberg@lakevalleyfire.org)

Stage Planning/Design
Duration 2015 - 2019
Total Project Cost \$179,951
Funding Request \$0

Community Wildfire Protection Program > Reduce Hazardous Fuels

No Key Photo provided for this Project

The recently completed Airport East project was a 37-acre hazardous fuels reduction project located within the Wildland Urban Interface (WUI) of South Lake Tahoe, on lands owned by the City of South Lake Tahoe. Originally a 52-acre fuels reduction project, costs increases resulted in reduced treatment area. There therefore remains need to secure future funding to complete work on the remaining 15-acres of untreated land.

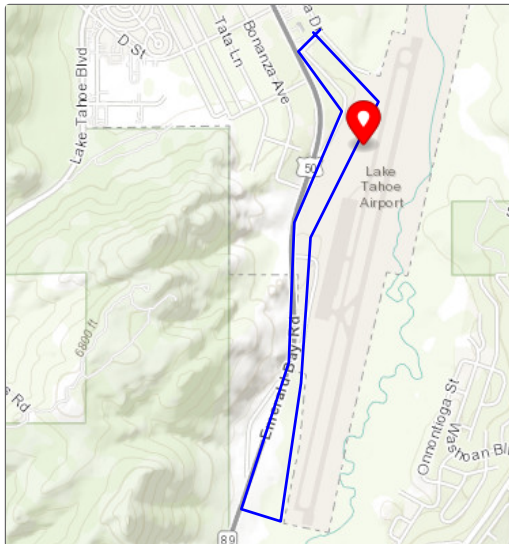

Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

Threshold Categories

- Vegetation Preservation

Location

Targeted Funding

■ Secured Funding: U.S. Forest Service (USFS - LTBMU), \$179,951
