### Community Wildfire Protection Program ➤ Reduce Hazardous Fuels

North Tahoe Fire Protection District will reduce hazardous fuels on at least 300 acres, but not more than 700 acres of highest priority WUI Defense Zone areas within North Tahoe and Meeks Bay Fire Protection Districts as identified in the Lake Tahoe Basin Community Wildfire Protection Plan. These treatments will improve forest health and reduce the threat of catastrophic wildfire, protecting life, property, and critical infrastructure in the Lake Tahoe Basin.
