

Community Forestry and Fire Protection

Project Number	02.01.01.0120		
Action Priority	Reduce Hazardous Fuels		
Implementers	California Tahoe Conservancy		
Supporting Agencies	California Tahoe Conservancy, U.S. Bureau of Land Management, U.S. Forest Service - Lake Tahoe Basin Management Unit, U.S. Forest Service - Lake Tahoe Basin Management Unit		
Primary Contact	Milan Yeates (milan.yeates@tahoe.ca.gov)		
Stage	Implementation	Duration	2018 - 2027
Total Project Cost	\$20,000,000	Funding Request	\$4,000,000

Community Wildfire Protection Program > Reduce Hazardous Fuels

The member organizations of the Tahoe Fire and Fuels Team are partnering to implement a comprehensive, coordinated management strategy across 12,000 acres of community forests in the Lake Tahoe Basin. These forests contain over 15,000 federal, state, local government, and privately managed vacant lots interspersed among homes and critical infrastructure. The project enables all-lands defensible space, fuel reduction and forest restoration throughout vulnerable neighborhoods in the wildland-urban interface. Through public-private partnerships, residents are engaged in stewardship and monitoring, and efficiency is improved by prioritizing and sharing resources across jurisdictions.

A Lake Tahoe Basin home within a managed community forest.

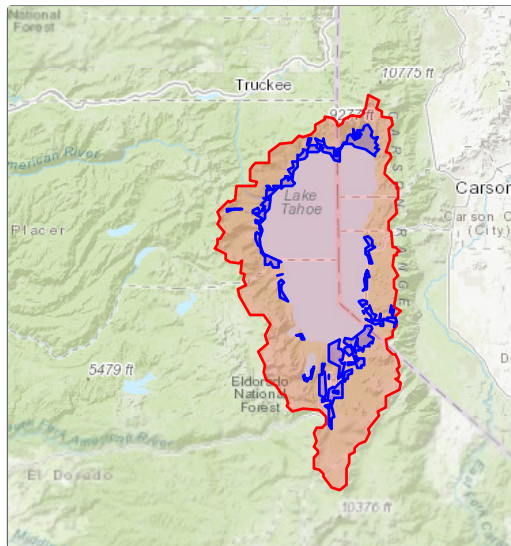

Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

Threshold Categories

- Vegetation Preservation

Location

Targeted Funding

■ Secured Funding: Lake Tahoe Restoratio... (USFS - LTBMU), \$597,340
■ Secured Funding: Southern Nevada Publi... (USFS - LTBMU), \$336,000
■ Secured Funding: Southern Nevada Public Land Ma... (BLM), \$4,008,480
■ Secured Funding: Wildfire Resilience (CTC), \$8,000,000
■ Targeted Funding: Lake Tahoe Restoratio... (USFS - LTBMU), \$2,000,000
■ Targeted Funding: Southern Nevada Publi... (USFS - LTBMU), \$2,000,000
■ No Funding Source Identified
