

Lake Tahoe Basin Community Wildfire Protection Plan (CWPP) Update

Project Number 02.01.01.0132
Action Priority Reduce Hazardous Fuels
Implementers Tahoe Resource Conservation District
Supporting Agencies California Tahoe Conservancy
Primary Contact Mike Vollmer (mvollmer@tahoercd.org)

Stage Planning/Design
Total Project Cost \$406,500
Duration 2021 - 2024
Funding Request \$0

Community Wildfire Protection Program ➤ Reduce Hazardous Fuels

The Lake Tahoe Basin Community Wildfire Protection Plan (CWPP) Update will update the current Lake Tahoe Basin CWPP (2015). The Healthy Forests Restoration Act (HFRA) of 2003 encouraged communities to create CWPPs to collaboratively designate community wildfire issues in most need of addressing. The process of developing CWPP helps communities clarify and refine priorities for the protection of life, property, and critical infrastructure in the wildland-urban interface. This project will also include the update of strategic and tactical wildfire pre-attack plans for all areas in the Lake Tahoe Basin.

Targeted Performance Measures

No Expected Accomplishments provided

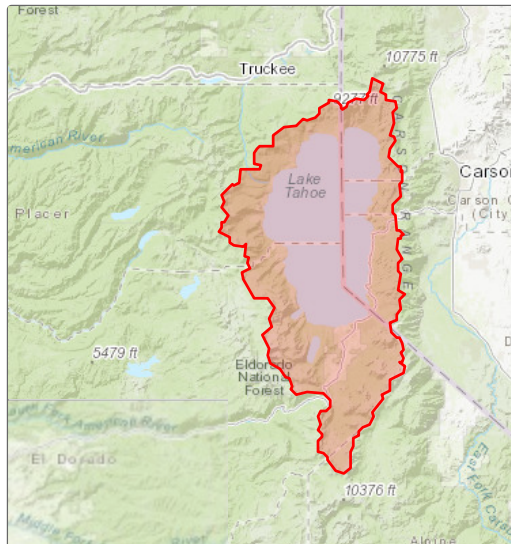

Threshold Categories

- Vegetation Preservation

CWPP Coordinator attends Earth Day 2023 in South Lake Tahoe to engage community members on the Community Wildfire Protection Plan update.

Location

Targeted Funding

Secured Funding: Department of Conservation, Re... (CTC), \$406,500
