

Skyland Shaded Fuel Break

Project Number	02.01.01.0134
Action Priority	Reduce Hazardous Fuels
Implementers	Tahoe Douglas Fire Protection District
Supporting Agencies	U.S. Forest Service - Lake Tahoe Basin Management Unit
Primary Contact	Keegan Schafer (kschafer@tahoe-fire.com)

Stage	Completed	Duration	2022 - 2024
Total Project Cost	\$150,000	Funding Request	\$0

Community Wildfire Protection Program > Reduce Hazardous Fuels

The Tahoe Douglas Fire Protection District will treat approximately 17 acres of US Forest Service lands to the South and East of the Skyland community. Treatment will consist of hand treatment and forest fuels mastication to create a "Shaded Fuel Break" as defined by the National Wildfire Coordinating Group; Fuel breaks built in timbered areas where the trees on the break are thinned and pruned to reduce the fire potential yet retain enough crown canopy to make a less favorable microclimate for surface fires.

Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

Threshold Categories

- Scenic Resources
- Vegetation Preservation

Location

Targeted Funding

■ Secured Funding: Southern Nevada Publi... (USFS - LTBMU), \$150,000
