

South Lake Tahoe Chipping Program

Project Number 02.01.01.0145
Action Priority Reduce Hazardous Fuels
Implementers City of South Lake Tahoe
Supporting Agencies Unknown
Primary Contact Jay Manning (jmanning@Cityofslt.us)

Stage	Implementation	Duration	2023 - 2028
Total Project Cost	\$450,000	Funding Request	Unknown

Community Wildfire Protection Program > Reduce Hazardous Fuels

The South Lake Chipping Program unites residents in a collaborative effort to mitigate wildfire risks and enhance the safety of our community. By participating in the program, individuals have the opportunity to proactively clear vegetation around their properties, creating defensible spaces that protect homes and neighborhoods from the threat of wildfires. With a focus on sustainability and community engagement, the chipped materials are repurposed for landscaping projects, promoting environmental stewardship and minimizing waste. Through the Chipping Program, residents not only contribute to a safer and more resilient community but also foster a sense of unity and shared responsibility.

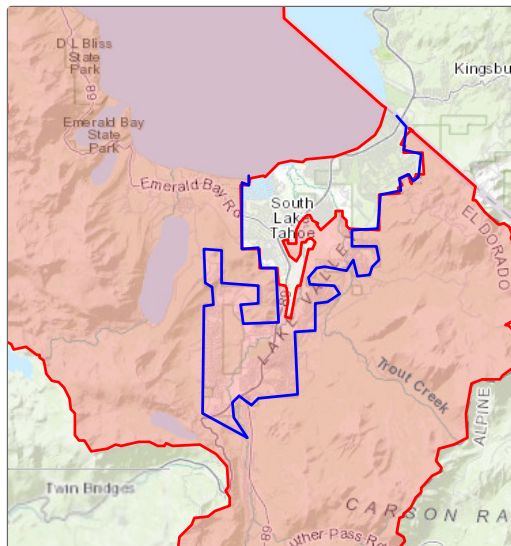

Targeted Performance Measures

- People Served

Threshold Categories

- Vegetation Preservation

Location

Crew Chipping Curbside

Targeted Funding
