

Tahoe Truckee Airport District/ North Tahoe Fire- River Road Project 1

Project Number 02.01.01.0151
Action Priority Reduce Hazardous Fuels
Implementers North Tahoe Fire Protection District
Supporting Agencies Truckee Tahoe Airport District
Primary Contact April Shackelford (shackelford@ntfire.net)

Stage	Planning/Design	Duration	2024 - 2026
Total Project Cost	\$400,000	Funding Request	\$0

Community Wildfire Protection Program ➤ Reduce Hazardous Fuels

The Tahoe Truckee Airport District - North Tahoe Fire (TTAD/NTF) River Road Fuels Reduction Project 1 is located on the south side of the Highway 89 corridor where it parallels the Truckee River between Tahoe City and Alpine Meadows, CA. This portion of Highway 89 is a primary evacuation route for Lake Tahoe residents and visitors and it is within the Defense Zone of the Wildland Urban Interface. The project addresses dead and dying trees, ladder fuels, and excessive ground fuels and will be part of a series of projects to reduce hazardous fuels and improve forest health, allowing for the highway corridor to better serve for evacuation among multiple benefits.

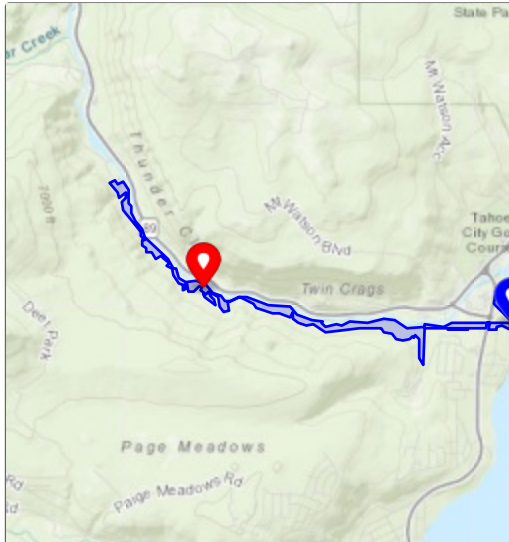

Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

Threshold Categories

- Fisheries
- Scenic Resources
- Vegetation Preservation

Location

Some removal of downed logs will be taking place to better complete a previous treatment at the 64-acre recreational area.

Targeted Funding

■ Secured Funding: Truckee Tahoe Airport Distric... (TTAD), \$400,000

Photos

Before

Ladder fuels and sub-dominant trees will be removed for structure protection as well as enhancing forest health.

Dead and dying surface and aerial fuels will be cut and piled for burning. This areas is downslope of homes on Kimberly Drive in Tahoe City.
