

El Dorado County Community Forestry Urban Parcels Fuels Treatment Planning Project

Project Number 02.01.01.0160
Action Priority Reduce Hazardous Fuels
Implementers El Dorado County, CA
Supporting Agencies California Tahoe Conservancy
Primary Contact Donaldo Palaroan (donaldo.palaroan@edcgov.us)

Stage Planning/Design **Duration** 2024 - 2027
Total Project Cost \$78,045 **Funding Request** \$0

Community Wildfire Protection Program > Reduce Hazardous Fuels

The project aims to develop a vegetation management plan (VMP), perform environmental analysis, and obtain all necessary permits and appropriate CEQA documentation to address excess vegetation and forest fuel loading on County-owned parcels in the Lake Tahoe Basin. The VMP will result in a project for the County to implement at a future date which will help to restore resilience of Basin forests and watersheds, foster Basin-wide climate change adaptation, and reduce risk for communities.

Targeted Performance Measures

No Expected Accomplishments provided

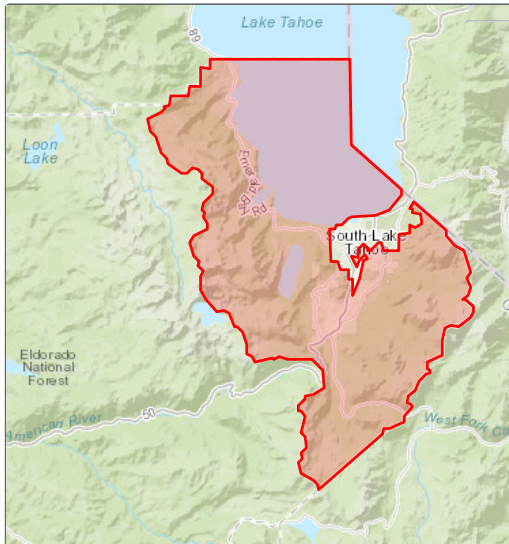

Threshold Categories

- Vegetation Preservation
