

## Northstar Community Services District Wood Energy Facility

<b>Project Number</b>	02.01.01.0164		
<b>Action Priority</b>	Reduce Hazardous Fuels		
<b>Implementers</b>	Northstar Community Services District		
<b>Supporting Agencies</b>	Unknown		
<b>Primary Contact</b>	Eric Martin (ericm@northstarcsd.org)		
<b>Stage</b>	Planning/Design	<b>Duration</b>	2018 - 2026
<b>Total Project Cost</b>	\$11,540,000	<b>Funding Request</b>	Unknown

### Community Wildfire Protection Program > Reduce Hazardous Fuels

NCSO is seeking to increase the scope and scale of its fuels management and defensible space programs through the development of a Wood Energy Facility project that will both reduce environmental impacts and minimize operating costs by creating a local use for otherwise non-merchantable biomass material. The project aims to serve as a valuable demonstration project for the greater Tahoe-Truckee region, acting as a catalyst for similar projects that could be replicated within the Tahoe-Truckee region as well as in other rural mountain and ski resort communities.

*No Key Photo provided for this Project*

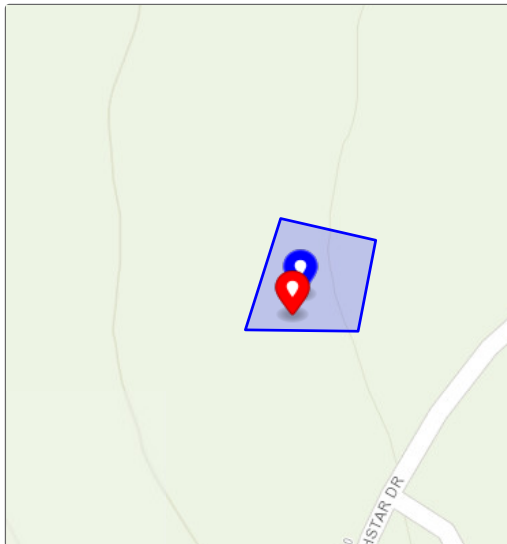

#### Targeted Performance Measures

- Tons of Biomass Utilized

#### Threshold Categories

- Air Quality

#### Location

#### Targeted Funding

■ No Funding Source Identified
