

## Liberty Utilities Resilience Corridors Project

<b>Project Number</b>	02.01.02.0014		
<b>Action Priority</b>	Implement Defensible Space on Public and Private Parcels and Utility Corridors		
<b>Implementers</b>	U.S. Forest Service - Lake Tahoe Basin Management Unit		
<b>Supporting Agencies</b>	U.S. Bureau of Land Management, U.S. Forest Service - Lake Tahoe Basin Management Unit		
<b>Primary Contact</b>	Brian Garrett (brian.garrett@usda.gov)		
<b>Stage</b>	Implementation	<b>Duration</b>	2019 - 2032
<b>Total Project Cost</b>	\$16,900,000	<b>Funding Request</b>	\$2,638,000

### Community Wildfire Protection Program > Implement Defensible Space on Public and Private Parcels and Utility Corridors

The Liberty Utilities Resilience Corridors Project area is located along utility corridors throughout the Lake Tahoe Basin area in El Dorado County on National Forest System Lands (National Forest). The project planning area is focused on lands in the wildland adjacent to utility infrastructure (powerlines). This project will undertake fuels reduction treatments along utility corridors owned and operated by Liberty Utilities in California, focused on infrastructure located in the Lake Tahoe Basin. Previous utility corridor treatments have taken place in the built environment, and so this project aims to reduce fuels and create healthy forests in previously untreated areas.

#### Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

#### Threshold Categories

- Vegetation Preservation

#### Location

#### Targeted Funding

- Secured Funding: Southern Nevada Public Land Ma... (BLM), \$11,000,000
- Secured Funding: U.S. Forest Service (USFS - LTBMU), \$3,262,000
- Targeted Funding: Southern Nevada Public Land Ma... (BLM), \$2,638,000
