

NV Energy Resilience Corridors Project

Project Number	02.01.02.0016		
Action Priority	Implement Defensible Space on Public and Private Parcels and Utility Corridors		
Implementers	U.S. Forest Service - Lake Tahoe Basin Management Unit		
Supporting Agencies	Nevada Energy, U.S. Bureau of Land Management, U.S. Forest Service - Lake Tahoe Basin Management Unit, U.S. Forest Service - Lake Tahoe Basin Management Unit		
Primary Contact	Brian Garrett (brian.garrett@usda.gov)		
Stage	Implementation	Duration	2020 - 2028
Total Project Cost	\$14,175,000	Funding Request	\$2,500,000

Community Wildfire Protection Program > Implement Defensible Space on Public and Private Parcels and Utility Corridors

The project will create resilient forests adjacent to approximately 28 miles of NV Energy utility infrastructure on the Nevada side of the Tahoe Basin. The project is designed to treat in 3 zones, Zone 1 is the area immediately adjacent to utility infrastructure (15'), Zone 2 is up to 175' from utility infrastructure and Zone 3 can extend up to 1000' feet from the utility infrastructure. The project will thin forest to improve forest health, remove trees that could grow into or fall on power lines and reduce hazardous fuels.
