

SNPLMA Fire Adapted Communities - Lake Tahoe Basin Project 002

Project Number	02.01.02.0025
Action Priority	Implement Defensible Space on Public and Private Parcels and Utility Corridors
Implementers	Tahoe Resource Conservation District
Supporting Agencies	Unknown
Primary Contact	Jason Brand (jbrand@tahoercd.org)

Stage	Planning/Design	Duration	2016 - 2028
Total Project Cost	\$8,705,302	Funding Request	Unknown

Community Wildfire Protection Program ➤ Implement Defensible Space on Public and Private Parcels and Utility Corridors

No Key Photo provided for this Project

The Tahoe Resource Conservation District will deliver a coordinated Lake Tahoe Basin Fire Adapted Communities Project, including extensive community engagement, outreach, and assistance. Through the Tahoe Network of Fire Adapted Communities (Tahoe Network) efforts will result in increased wildfire prevention and preparedness through the completion of fire defensible space treatments reducing hazardous fuels on private parcels through community assistance and implementation of the Tahoe Network. Private parcel fuels reduction will be focused on communities where fuels reduction projects are planned in adjacent community forestry projects.

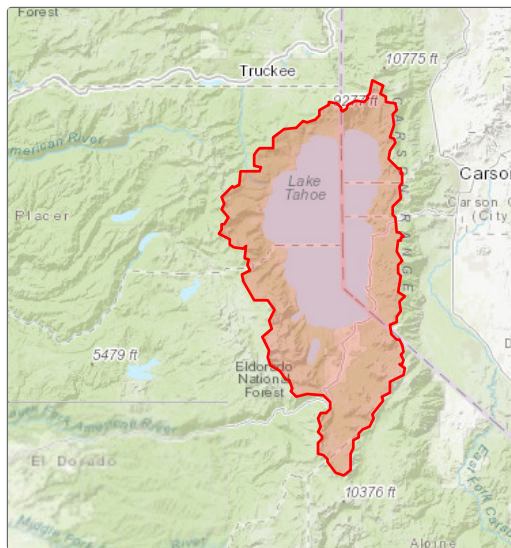

Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment
- Educational and Interpretive Programs Produced
- Parcels Inspected for Defensible Space

Threshold Categories

- Vegetation Preservation
