

IVGID Fire Hydrant Replacement Program

Project Number	02.01.03.0018		
Action Priority	Upgrade Priority Water Infrastructure to Fight Catastrophic Wildfire		
Implementers	Incline Village General Improvement District		
Supporting Agencies			
Primary Contact	HUDSON KLEIN (hwk@ivgid.org)		
Stage	Planning/Design	Duration	2022 - 2027
Total Project Cost	\$750,000	Funding Request	\$750,000

Community Wildfire Protection Program ➤ Upgrade Priority Water Infrastructure to Fight Catastrophic Wildfire

Hundreds of fire hydrants within IVGID were installed >40 years ago and are no longer in compliance with current NLTFPD adopted IFC code requirements and standard operating guidelines. The increasing age also means replacement parts are no longer available for certain manufacturer models. Replacement criteria is based on a priority basis determined cooperatively by IVGID and NLTFPD. The project aims to replace hydrants no longer suitable for continued maintenance and to modify hydrants that can be salvaged and updated to meet current code requirements. Project improves water supply enhancing fire protection capabilities on private, local, state, and federal lands by increasing fire flow volume
