

Forestry - Sunset Aspen Restoration

Project Number	02.02.01.0010	Duration	2013 - 2019
Action Priority	Restore Native Vegetation and Forest Communities	Funding Request	\$0
Implementers	California Tahoe Conservancy		
Supporting Agencies	California Tahoe Conservancy, Tahoe Regional Planning Agency		
Primary Contact	Whitney Brennan (whitney.brennan@tahoe.ca.gov)		
Stage	Completed		
Total Project Cost	\$245,000		

Forest Restoration Program ➤ Restore Native Vegetation and Forest Communities

The Sunset Aspen Restoration forestry project involved cutting trees that were marked under the guidance of a Registered Professional Forester (RPF) for forest health and fuel reduction efforts. The project was implemented by hand crews cutting designated trees and brush. The project was split into two phases: the first being the cutting of designated trees and brush and the second being the burning of the piles. The project is located in the South Shore of Lake Tahoe and was 32 acres in size.

Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

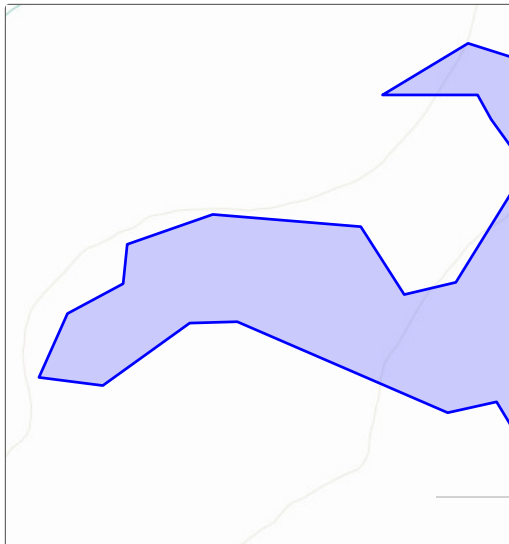

Threshold Categories

- Vegetation Preservation

Aspen stand and meadow with conifer encroachment

Location

Targeted Funding

- Secured Funding: California Tahoe Conservancy (CTC), \$41,000
- Secured Funding: Tahoe Regional Planning Agency (TRPA), \$204,000
