

Tahoe Yellow Cress, Private Land Conservation

Project Number	02.02.01.0023		
Action Priority	Restore Native Vegetation and Forest Communities		
Implementers	U.S. Natural Resource Conservation Service		
Supporting Agencies	Unknown or unspecified		
Primary Contact	Beth Vollmer (bvollmer@trpa.gov)		
Stage	Implementation	Duration	2009 - ongoing
Total Project Cost	\$90,000	Funding Request	\$0

Forest Restoration Program ➤ Restore Native Vegetation and Forest Communities

This project targets the implementation of the Conservation Strategy for Tahoe Yellow Cress, intended to preclude the listing of the species under the Endangered Species Act. This project specially targets the development of conservation plans for private property owners documenting conservation technical assistance provided to help landowners conserve the species. It may include some supplies for signage or examples of temporary fencing measures needed to protect the plant during critical periods when it is subject to human disturbance.

Targeted Performance Measures

No Expected Accomplishments provided

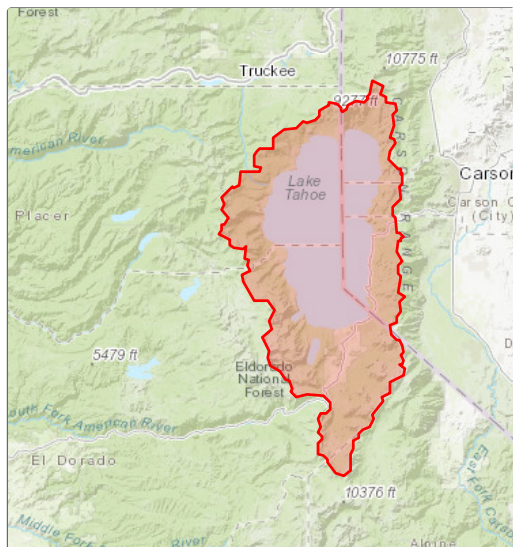

Threshold Categories

- Vegetation Preservation

new TYC enclosure at the Tahoe Beach Club

Location

Targeted Funding

- Secured Funding: Unknown or Unassigned, \$45,000
- No Funding Source Identified
