

## SNPLMA 15 Incline Village Prescribed Fire Project

<b>Project Number</b>	02.02.02.0008
<b>Action Priority</b>	Implement Prescribed Fire
<b>Implementers</b>	North Lake Tahoe Fire Protection District
<b>Supporting Agencies</b>	Incline Village General Improvement District, U.S. Bureau of Land Management
<b>Primary Contact</b>	Ryan Dominguez (RDominguez@nltfpd.net)

<b>Stage</b>	Completed	<b>Duration</b>	2016 - 2022
<b>Total Project Cost</b>	\$300,000	<b>Funding Request</b>	\$0

### Forest Restoration Program > Implement Prescribed Fire

This North Lake Tahoe Fire Protection District project reduces hazardous fuels on at least 150 acres, but not more than 544 acres of local government owned land in the wildland-urban interface of Incline Village, Nevada to mitigate wildfire risk to the community and improve forest health. The project promotes community protection and forest health by utilizing prescribed understory fire to cost-effectively reduce hazardous fuels and to protect life, property, and the environment from the effects of catastrophic wildfire. Understory burns restore resilient landscapes by reintroducing natural disturbance to a fire-adapted ecosystem.

#### Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

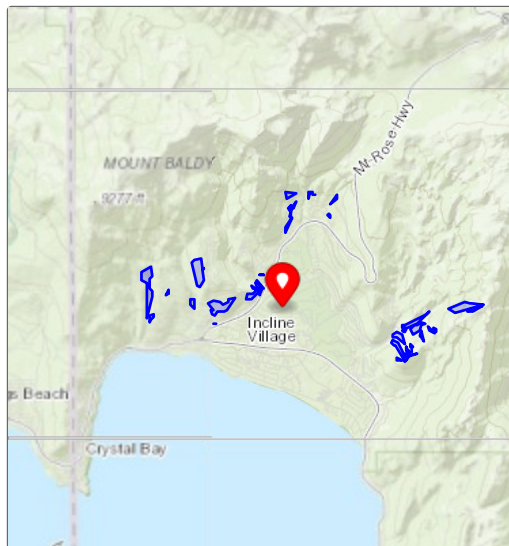

#### Threshold Categories

- Vegetation Preservation

Low intensity prescribed fire

#### Location

#### Targeted Funding

- Secured Funding: Incline Village General Impr... (IVGID), \$200,000
- Secured Funding: Southern Nevada Public Land Ma... (BLM), \$200,000
