<b>Primary Contact</b>	Anna Higgins (ahiggins@forestry.nv.gov)		
<b>Stage</b>	Planning/Design	<b>Duration</b>	2024 - ongoing
<b>Total Project Cost</b>		<b>Funding Request</b>	\$0

### Forest Restoration Program > Implement Prescribed Fire

*No Key Photo provided for this Project*

This project aims to implement understory burning at Spooner Lake and Backcountry State Park and Van Sickle Bi-state Park. Understory burning improves forest health and resilience, reduces wildfire hazard, and improves wildlife habitat. Some of the project area will be a reburn from 10 years ago, while other project areas will see the first reintroduction of beneficial fire in over 100 years. These forests historically burned every 5-20 years, and are long overdue for understory burning.

#### Targeted Performance Measures

- Acres of Forest Fuels Reduction Treatment

#### Threshold Categories

- Vegetation Preservation

#### Location

#### Targeted Funding

■ Secured Funding: Tahoe Bonds Act (NDSL), \$250,000
