

56 Acres Master Plan

Project Number	03.01.02.0110
Action Priority	Improve Public Recreation Facilities
Implementers	City of South Lake Tahoe
Supporting Agencies	California Tahoe Conservancy
Primary Contact	Jim Marino (jmarino@cityofslt.us)

Stage	Completed	Duration	2020 - 2022
Total Project Cost	\$425,000	Funding Request	\$0

Sustainable Recreation Program > Improve Public Recreation Facilities

No Key Photo provided for this Project

The Project is the development of a master plan document for the City/County Park known as "56 Acres". The purpose of the master plan is to develop a comprehensive strategy for the project site, facilities, programs and services that is responsive to the community's demographics, social background, and recreational and health needs. The plan will serve to guide the City in a wide-ranging future capital implementation plan. Projects resulting from this plan will be separate EIP projects: 1. Rec Center 2. Construction of Through Road (Tallac Avenue to Rufus Allen Blvd) 3. Demolition of existing Rec Center 4. Design and Construction of a new Campground

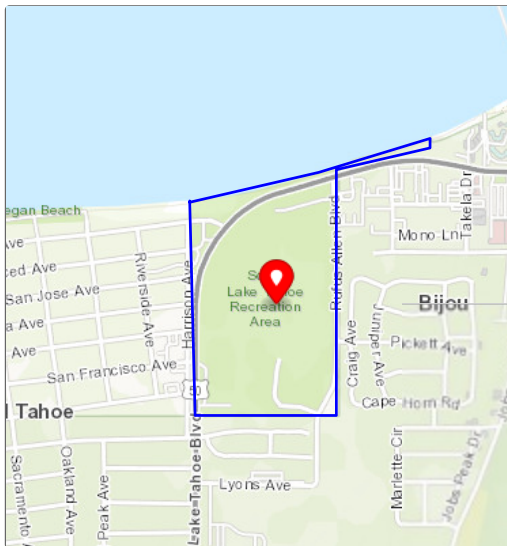

Targeted Performance Measures

- Facilities Improved or Created
- Forest Upland Facilities Retrofitted for Stormwater

Threshold Categories

- Recreation
- Vegetation Preservation
- Water Quality

Location

Targeted Funding

Secured Funding: California Tahoe Conservancy (CTC), \$425,000
