Sustainable Recreation Program > Improve Public Recreation Facilities

The project consists of constructing gathering spaces adjacent to the existing tennis and pickleball courts. The project involves concrete curbs, asphalt pavement, pervious pavers, acrylic surfacing, electrical improvements, adding a seat wall, trash enclosure ball backboard, bike racks, interpretive panels, and an art feature from a local artist.

Area adjacent to Pickleball Court to be improved. The Pickleball Court was improved in 2023; but, there was not enough funding to complete the Community Gathering Space at that time.
