Stage	Implementation	Duration	2012 - 2025
Total Project Cost	\$56,020,000	Funding Request	\$0

Transportation Program ➤ Build and Enhance Transit Systems

The project includes 2 phases that will be constructed separately: 1. Truckee River Bridge Project includes a new, 1,700 foot long section of SR 89 with a new bridge over the Truckee River, and 2 new roundabouts. The project will replace a section of sewer within the project limits. This project was completed in the fall of 2020. 2. Fanny Bridge Project includes replacing the signalized "wye" intersection with a single lane roundabout and replacement of the Fanny Bridge with a new, single span bridge. The construction contract was advertised for bids on 11/20/2023 with a bid opening scheduled for 12/21/2023. Bids/funding will determine what is constructed in 2024 and 2025.

new bike path

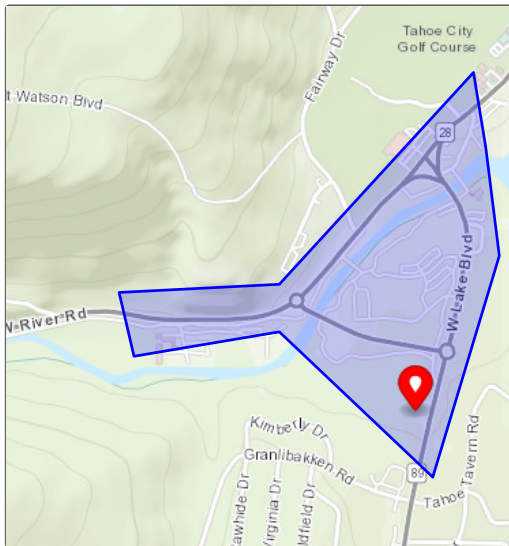

Targeted Performance Measures

- Miles of Pedestrian and Bicycle Routes Improved or Constructed

Threshold Categories

- Air Quality

Location

Targeted Funding

Secured Funding: Federal Lands Access Program ... (FHWA), \$44,472,570
