

## Lake Tahoe TMDL Online Interface

<b>Project Number</b>	04.01.02.0023		
<b>Action Priority</b>	Implement Programmatic Monitoring and Reporting		
<b>Implementers</b>	Nevada Division of Environmental Protection, California Lahontan Regional Water Quality Control Board, Environmental Incentives		
<b>Supporting Agencies</b>	Nevada Division of Environmental Protection		
<b>Primary Contact</b>	Jason Kuchnicki (kuchnicki@ndep.nv.gov)		
<b>Stage</b>	Completed	<b>Duration</b>	2013 - 2018
<b>Total Project Cost</b>	\$15,300	<b>Funding Request</b>	\$0

### Science Program > Implement Programmatic Monitoring and Reporting

*No Key Photo provided for this Project*

The Lake Tahoe Total Maximum Daily Load (TMDL) is a science-based plan to restore Lake Tahoe's historic clarity. The Lake Tahoe TMDL Program seeks to guide the effective implementation of the TMDL so that people may once again be able to see to depths of nearly 100 feet in Lake Tahoe. The TMDL Online Interface is the central hub for information related to the Lake Tahoe TMDL Program, providing an overview of and access to the TMDL plan, tracking and reporting implementation results, and facilitating progress assessment and adaptive management of the Program. Estimated Total Cost reflects cost for Online Interface third-party hosting and anticipated cost to transition to LT Info in 2018.

### Targeted Performance Measures

*No Expected Accomplishments provided*

### Threshold Categories

- Soil Conservation
- Water Quality

### Location

### Targeted Funding

■ Secured Funding: Nevada Division of Environmen... (NDEP), \$15,300
