

Eyes on the Lake

Project Number	04.01.02.0026		
Action Priority	Implement Programmatic Monitoring and Reporting		
Implementers	League to Save Lake Tahoe		
Supporting Agencies	League to Save Lake Tahoe		
Primary Contact	Laura Patten (Laura@keptahoeblue.org)		
Stage	Implementation	Duration	2016 - 2026
Total Project Cost	\$550,000	Funding Request	\$0

Science Program > Implement Programmatic Monitoring and Reporting

Eyes on the Lake is a citizen science program to help prevent the spread of aquatic invasive species in Tahoe’s waters. League staff train community members how to identify and report on aquatic plants found while out enjoying the Lake. This information is used for early detection of new infestations followed by a rapid response to get treatment on the ground and stop these invaders in their tracks. Eyes on the Lake volunteers literally protect while they play at Lake Tahoe.
