

Assessment of long term change in bird populations

Project Number	04.01.02.0045		
Action Priority	Implement Programmatic Monitoring and Reporting		
Implementers	California Department of Parks and Recreation		
Supporting Agencies	California Department of Parks and Recreation		
Primary Contact	Rich Adams (rich.adams@parks.ca.gov)		
Stage	Completed	Duration	2022 - 2023
Total Project Cost	\$10,000	Funding Request	\$0

Science Program > Implement Programmatic Monitoring and Reporting

Resurvey of John Keane PhD grid plots from the early 1990s to assess long term change in bird populations. The Keane PhD surveys were conducted for California State Parks to assess change in bird populations in response to forest management and prescribed fire. This survey work will be conducted by the Tahoe Institute for Natural Science.
