

Snowshoe Hare Resurvey

Project Number 04.01.02.0046
Action Priority Implement Programmatic Monitoring and Reporting
Implementers California Department of Parks and Recreation
Supporting Agencies California Department of Parks and Recreation
Primary Contact Rich Adams (rich.adams@parks.ca.gov)

Stage Completed
Duration 2020 - 2023
Total Project Cost \$10,000
Funding Request \$0

Science Program > Implement Programmatic Monitoring and Reporting

Resurvey J. Keane plots from the early 1990s focused on snowshoe hares. Keane PhD work was intended to assess changes in wildlife populations in response to forest management, particularly prescribed burning. Pilot project with field sampling by Tahoe Institute of Natural Sciences to inform larger scientific investigation.
