

North Lake Tahoe Regional Greenhouse Gas Emissions Inventory

Project Number	04.01.02.0051		
Action Priority	Implement Programmatic Monitoring and Reporting		
Implementers	Tahoe City Public Utility District		
Supporting Agencies	California Tahoe Conservancy, North Tahoe Public Utility District, Tahoe City Public Utility District		
Primary Contact	Kim Boyd (kboyd@tcpud.org)		
Stage	Planning/Design	Duration	2025 - 2026
Total Project Cost	\$101,000	Funding Request	\$0

Science Program > Implement Programmatic Monitoring and Reporting

No Key Photo provided for this Project

The Project will provide Tahoe City Public Utility District (TCPUD) and North Tahoe Public Utility District (NTPUD) an opportunity to understand a comprehensive view of operations emissions, manage Greenhouse Gas (GHG) emissions output, identify opportunities to reduce GHG emissions, and measure progress toward local, regional, state, and federal climate goals. The objective is to create a baseline and current year GHG Inventory for the North Lake Tahoe region from state line at Crystal Bay west to the Nevada County line and south along the west shore to Emerald Bay. The inventory includes data on emissions from services provided by the TCPUD and the NTPUD within their service territories.

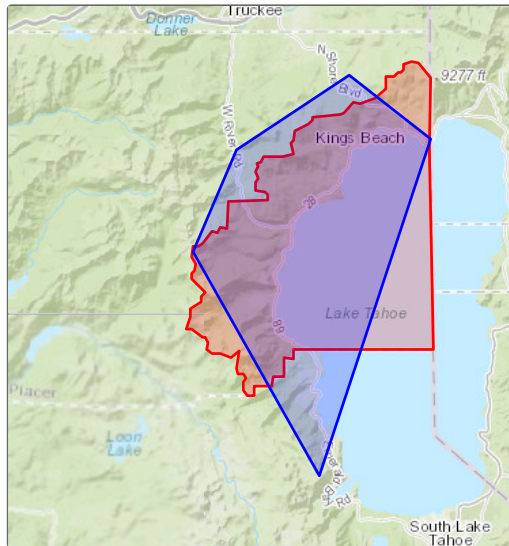

Targeted Performance Measures

No Expected Accomplishments provided

Threshold Categories

- Transportation and Sustainable Communities

Location

Targeted Funding

- Secured Funding: California Tahoe Conservancy (CTC), \$81,000
- Secured Funding: North Tahoe Public Utility D... (NTPUD), \$10,000
- Secured Funding: Tahoe City Public Utility Di... (TCPUD), \$10,000
