

Tahoe Blue Crews

Project Number	04.02.01.0029
Action Priority	Engage Communities in Environmental Stewardship
Implementers	League to Save Lake Tahoe
Supporting Agencies	League to Save Lake Tahoe
Primary Contact	Laura Patten (Laura@keptahoeblue.org)

Stage	Implementation	Duration	2019 - 2026
Total Project Cost		Funding Request	\$0

Stewardship Program > Engage Communities in Environmental Stewardship

The Tahoe Blue Crew program helps volunteers adopt an area impacted by litter anywhere in the Tahoe-Truckee region. This project trains participants to conduct litter cleanups, and arms volunteers with proper supplies and methods for collecting and submitting data that is crucial to informing the League's advocacy and other litter solutions. A Tahoe Blue Crew can be a single individual, family, group who commit to conducting at least three cleanups at their adopted site each year. For those whose free time is scarce, they can still get involved as a #TahoeBlueGooder, and remove litter they find and report it using the Citizen Science Tahoe app.

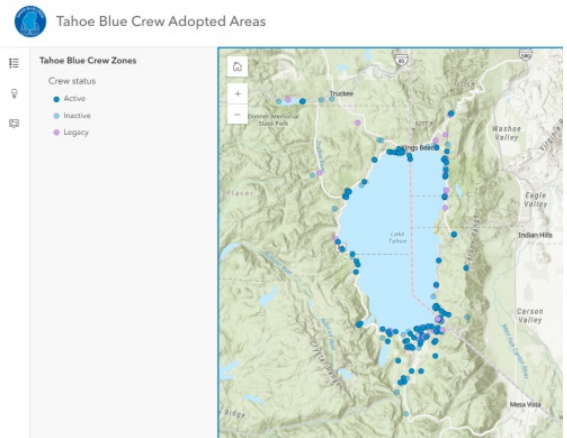

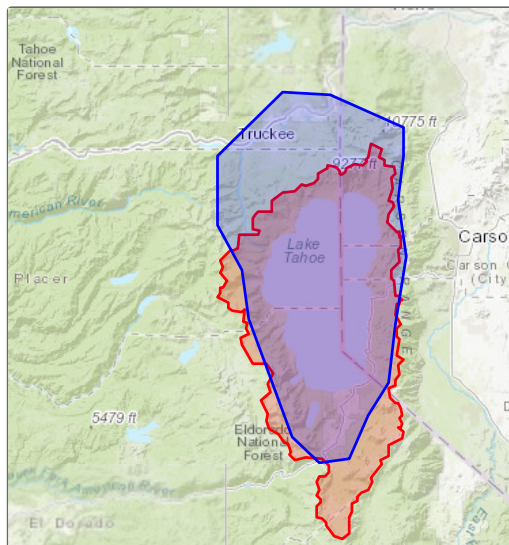

Targeted Performance Measures

- Disturbed Areas Restored, Enhanced, or Created
- Educational and Interpretive Programs Produced
- People Served

Threshold Categories

- Recreation
- Scenic Resources
- Water Quality

Location

Tahoe Blue Crew Adopted Areas 2024

Targeted Funding

Secured Funding: League to Save Lake Tahoe (League), \$150,000
