

Forestry - Fallen Leaf Fuelbreak

Project Number	02.01.01.0072
Action Priority	Reduce Hazardous Fuels
Implementers	California Tahoe Conservancy
Primary Contact	Jason Vasques (jason.vasques@tahoe.ca.gov)
Stage	Terminated
Duration	2015 - 2023

Community Wildfire Protection Program > Reduce Hazardous Fuels

Forestry - Fallen Leaf Fuelbreak - fuels treatment on Conservancy land in the Fallen Leaf Lake area. This project has been terminated because it has been merged with another large forestry effort. Project is not in a SNPLMA 16 focus area The Fallen Leaf Fuelbreak forestry project involves cutting of trees that will be marked under the guidance of a RPF for forest health and fuel reduction efforts. The project will be implemented by hand crews cutting designated trees and brush. The project is split into two phases, the first being the cutting of designated trees and brush and the second being the burning of the piles. The project is located in the south shore of Lake Tahoe.
