

P023: Development of a Water Quality Modeling Toolbox to Inform Pollutant Reduction Planning

Project Number	04.01.01.0089
Action Priority	Conduct Applied Scientific Research
Implementers	UC Davis Tahoe Environmental Research Center
Primary Contact	Patricia Maloney (pemaloney@ucdavis.edu)
Stage	Completed
Duration	2007 - 2012

Science Program > Conduct Applied Scientific Research

Develop a toolbox of modeling tools, package selected models to include user-friendly protocols, documentation and application formats, leading to a means for technology transfer to Basin users, create conceptual and operational linkages between individual models as appropriate, and update the Watershed Model to better address the critical issue of wildfire and pollutant runoff.
